Course Descriptions

FRENCH:

This course is for students who have already studied some French and would like to refresh their skills by working towards a GCSE in the subject. Students can enjoy practising the four skills of speaking, writing, reading and listening in French. In addition to regular attendance to submit coursework, students must be prepared to commit to self-study time in order to complete the GCSE qualification in one year.

HISTORY:

In History we start the year by exploring a breadth study of Medicine Through Time from the prehistoric era to the modern day. We then complete a local study on Colchester Castle which makes up the coursework component of the GCSE. We finish the year by completing an indepth study on the American West looking at the reasons for settlement West and the conflict on the Plains.

ENGLISH:

The English Language GCSE covers aspects of non-fiction, mainly media, texts and an anthology of poetry. A novel based on a different culture, traditionally "Of Mice and Men" and one of Shakespeare's plays, traditionally "Romeo and Juliet", are studied in preparation for an examination which covers both of these text and a writing task. There is also an element of delivering short speeches to the class, two individually and one group discussion.

MATHS:

The GCSE Mathematics class covers all foundation level topics up to C grade, including Pythagoras' Theorem, Trial and Improvement, Algebra, Shape and Space, Data and much more. The course is 2 hours per week starting in September up until the summer examination. The exam board used is Edexcel.

SCIENCE:

GCSE Core Science covers Biology, Chemistry & Physics plus practical coursework. Key topics include Classification, the environment, the earths atmosphere, Chemical reactions, the electromagnetic spectrum, generating electricity & energy for the future. There is an emphasis on practical skills and investigative work.
